SOLOMON KALUSHI MAHLANGU

SCHOLARSHIP FUND

— AN NYDA INITIATIVE —

## ABOUT THE SOLOMON KALUSHI MAHLANGU SCHOLARSHIP FUND (SKMSF)

“My blood will nourish the tree that will bear the fruits of freedom. Tell my people that I love them and that they must continue the fight.”

Solomon Kalushi Mahlangu, 6 April 1979

In its quest to address the challenge of youth unemployment, access to education and shortage of scarce skills, the **National Youth Development Agency (NYDA)** is offering the scholarship to youth under 35 years of age to give them an opportunity to study at public universities or university of technologies across South Africa.

To support this new strategic focus, the NYDA established the Solomon Mahlangu Scholarship Fund (SMSF). The Fund seeks to avail financial support to youth to enable them to pursue quality education in an institution of higher learning with youth in rural areas as primary target.

The scholarship fund was established in honour of Solomon Kalushi Mahlangu who at the age of 23, was executed under the apartheid laws after being wrongfully accused of murder and terrorism. Fearing crowd reaction at the funeral, police decided to bury Mahlangu in Atteridgeville.

The scholarship fund is designed to create an environment for affording youth with excellent academic background, an opportunity to further their studies. Financial support will be provided to youth who pursue full-time Degrees that fall within the priority growth sectors, critical and scarce skills areas outlined in the labor planning frameworks of the country.

The fund will be accessible to deserving South African youth who meet the minimum entry requirements set by the NYDA and, who have been admitted for study at public Universities and Universities of Technology.

Objectives of The Solomon Mahlangu Scholarship Fund:

- To provide financial support to youth in the form of scholarships to increase their chances of accessing quality higher education in their field of study.
- To increase chances of employability or entrepreneurship based on the positive correlation between level of education and employability.
- Empower the youth (under 35 years) with education to enable them to compete favourably in the labourmarket.
- Contribute to the development of critical and scarce skills.

“**NYDA** has funded me since my first year in 2014, until my graduation last year December. The programme has been absolutely amazing! It took such a massive burden off my parents’ shoulders and truly made my university experience much more enjoyable. It’s been such a blessing to only have the stress of passing modules during these last four years. I never once had to worry about how we were going to pay for my studies or accommodation.

The only advice I can give to young people starting out is that they do what they love. Choose something that will make you happy and work at. Be kind to others and use what you’ve learnt to better the lives of the people around you.”
