• **NYDA BACKGROUND AND INTRODUCTION**

The National Youth Development Agency (NYDA) is a South African-based agency established primarily to tackle challenges that the nation's youth face. The NYDA was established by an Act of Parliament, act no 54 of 2008. The institution was established to be a single, unitary structure, established to address youth development issues at the National, Provincial, and Local government levels.

The existence of the NYDA should be located within the broad context of South Africa's development dynamics. Like many developing countries, South Africa has a large population of youth, those between the ages 14-35; represent 42% of the total population. Given the youthful nature of the South African population much of the socio-economic challenges faced by the nation, i.e. poverty, inequality and joblessness, poor health, etc, are borne by the youth.

The gravity of the challenges South Africa is faced with, require multi-pronged efforts, that simultaneously promote the development of sustainable livelihoods, reduce poverty, and inequality, and prioritise the development of policies that create an enabling environment for youth development.

The NYDA plays a lead role in ensuring that all major stakeholders, i.e., government, private sector, and civil society, prioritise youth development and contribute towards identifying and implementing lasting solutions that address youth development challenges.

Furthermore, the NYDA designs and implements programmes aimed at improving the lives and opportunities available to youth. These programmes could be clustered as follows:

At an individual level (Micro level), the NYDA provides direct services to youth in the form of information provision, mentorship, skills development & training, entrepreneurial development & support, health awareness programmes, and involvement in youth initiatives.

At a community level (Meso Level), the NYDA encourages young people to be catalysts for change in their communities through involvement in community development activities, social cohesion activities, and national youth service programmes and dialogue.

At a Provincial and National level (Macro Level), through its policy development, partnerships, and research programmes, the NYDA facilitates the participation of youth in developing key policy inputs, which shape the socio-economic landscape of South Africa.

The National Youth Development Agency derives its mandate from the legislative frameworks, including the NYDA Act (54 of 2008), the National Youth Policy (2009-2020), and the draft Integrated Youth Development Strategy as adopted by the Youth Convention of 2006. The NYDA activities could be summarized as follows:

- Lobby and advocate for integration and mainstreaming of youth development in all spheres of government, the private sector, and civil society.
- Initiate, implement, facilitate, and coordinate youth development programmes.
- Monitor and evaluate youth development intervention across the board and mobilise youth for active participation in civil society engagements.

- **BACKGROUND TO THE AGRARIAN REVOLUTIONS PROJECT**

The NYDA has been approached by the Department of Cooperative Governance and Traditional Affairs requesting the NYDA to provide project management services as an implementing partner for the Community Works Program (CWP) Agrarian projects for the six provinces. These provinces are Northwest, Mpumalanga, Kwa-Zulu Natal, Western Cape, Eastern Cape, and Limpopo.

In this regard, the Department of Cooperative Governance has requested the NYDA to support it in the assessment of and return to profitability of several distressed CWP Agrarian projects. The intention is that the program will be divided into three distinct phases:

- Phase 1:** The evaluation of the distressed CWP Agrarian Projects to determine the work that has been undertaken, the skills of the existing participants, and infrastructure investment and to determine a clear project strategy and implementation plan including budget and timeframes.
- Phase 2:** Depending on whether the business plan put forth is agreed upon by COGTA, implement the agreed upon project implementation plan.
- Phase 3:** Project aftercare and support to ensure project sustainability over the medium to long term.

- **Context**

The eradication of rural poverty is one of the most critical challenges facing the country. Despite a great deal of work that has been undertaken since 1994, rural poverty continues to persist today. The impact of poverty alleviation interventions has been considerably lower than expected. Seemingly the range and quality of development and anti-poverty programs cannot be attributed as the cause. The key issues inhibiting the eradication of poverty appear to be a failure to coordinate developmental activities and provide an integrated package of services that match local priorities.

The model being put forth seeks therefore to strengthen existing partnerships and create new ones within all three spheres of government, the private sector and civil society. Partnerships with the Department of Co-operative Governance and Traditional Affairs in collaboration with the Department of Forestry, Fisheries, and the Environment, and the Department of Agriculture, Rural Development, and Land Reform are critical to the success of any such program.

The project seeks to:

- Be based on economic advantage.
- Have all the elements of the value chain for dominant products.
- Ultimately lays the foundation for rural industrialisation.

The agriculture and agri-processing sector is crucial for economic diversification in South Africa.

- **TENDER DATA AND CONDITIONS OF TENDER**

The Conditions of Tender are the General Conditions of Contract issued by the National Treasury. The purpose of the conditions is to:

- **TERMS OF REFERENCE**

- **Project background**

The Agrarian Programs were started in 2019 by the Department of Co-operative Governance and Traditional Affairs in collaboration with the Department of Forestry and Fisheries and the Department of Agriculture, Rural Development, and Land Reform under the banner of the Community Works Program.

The intention was to collaborate with the National and Provincial Government Departments working with Local Government and Traditional Authorities under the banner of CWP to ensure sustainable transfers of CWP participants into agricultural programs to curb unemployment and reduce poverty.

The following objectives, guiding principles, and desired outcomes were considered amongst others:

Objectives

- Promote the skills of and support smallholder farmers and cooperatives through the provision of capacity building, mentorship, farm infrastructure, extension services, production inputs, and mechanisation inputs.

Guiding Principles

- Maximise access to markets for all farmers with a bias toward emerging farmers and rural communities.
- Maximise the use of agri-processing, bulk, and logistics infrastructure, including the availability of water, energy, and roads.

Desired Outcome

- Develop a “new” class or pool of African skilled farmers that have the necessary technical expertise and ability to supply the market sustainably and at the desired quality.

Based on the initial observations of site visits, the level of investment made in this project is evident in the quality of the infrastructure on the premises, albeit damaged due to external factors. Below are some observations that inform the recommended team structure to manage the project, informed by the following challenges:

3. The projects are currently hampered by fundamental production shortcomings, both from a demand and a supply perspective.
4. Supply side: Management onsite possesses the expertise to run operations, however, technical oversight is necessary to manage the production risks.
5. Demand side: Agricultural commodities produced are not based on available market opportunities and the choice of market for selling produce is reactive.

6. Financial sustainability of the project is highly reliant on its ability to meet production levels that generate profit; so currently, the project will not be capable of sustaining itself.

- **Summary of all Projects**

The following represents the summary of Agrarian projects. The NYDA reserves the right to amend the projects.

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS, AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

a) **GENERAL CONDITIONS** a The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

b **To be completed by the organ of state**

1. Either the 90/10 or 80/20 preference point system will be applicable in this tender. The lowest/highest acceptable tender will be used to determine the accurate system once tenders are received.

c Points for this tender shall be awarded for:

- Price; and
- Specific Goals.

d **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	90 or 80
SPECIFIC GOALS	10 or 20
Total points for Price and SPECIFIC GOALS	100

- e Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender will be interpreted to mean that preference points for specific goals are not claimed.
- f The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

b) **DEFINITIONS**

- 6 **“tender”** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- 7 **“price”** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- 8 **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- 9 **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- 10 **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

c) **FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES**

o **POINTS AWARDED FOR PRICE**

3.1.1 **THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS**

A maximum of 80 or 90 points is allocated for price on the following basis:

$$P=80-\frac{P-P_{\min}}{P_{\min}} \quad \text{or} \quad P=90-\frac{P-P_{\min}}{P_{\min}}$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

• **POINTS AWARDED FOR SPECIFIC GOALS**

- o In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender, the tenderer will be allocated points based on the goals stated in Table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- o In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- 6 an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or

- 7 any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system, then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.
